**Substance Abuse Treatment Beds**

February 8, 2007

Over the past two years Nevada has lost 69 substance abuse treatment beds; 53 for residential services and 16 for transitional housing. This is mainly due to the relocation of Bristlecone Family Resources in Reno (17 bed loss) and the closure of Economic Opportunity Board in Las Vegas (52 bed loss). The table below presents the current bed capacity for programs supported by SAPTA.
